**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

My name is Ray Chen and I am a customer of Sonic network and have been pretty happy with it. For years I have been a customer of ATT and have seen my telephone and internet bill going up every year while ATT offers mediocre customer service. I would like to see more competition between these telecom companies so that consumers can benefit for prices and services in the long run.

I am writing to ask FCC to allow Sonic network to continue to build its fiber network in order to benefit the residents of California and give us have a choice to say no to prices hikes from big companies like ATT who have been monopolizing the telecom market for years.

I am using Sonic broadband at the moment to do most my work and would like to see Sonic having fiber in the near future that I can opt to choose for my home service.

Thank you very much for your consideration.

Sincerely,

Ray Chen
